## Making Notes

The screenshot shows the NotesApp interface. At the top, there's a header with the app name 'NotesApp' on the left and user information 'Welcome, Aditya kashyap' with a 'Sign Out' button on the right. The main content area has a welcome message 'Welcome back, Aditya kashyap!' and a subtitle 'Manage your notes and stay organized'. A blue button 'Add New Note' is in the top right. A modal titled 'Create New Note' is open in the center. It has a 'Title' field with placeholder text 'Enter note title' and a 'Content' field with placeholder text 'Write your note content here...'. At the bottom of the modal are two buttons: 'Create Note' (blue) and 'Cancel' (gray).

## Stored Notes and Data

The screenshot shows the NotesApp interface with stored notes. The header is the same as the previous screenshot. The main content area has the same welcome message and subtitle. The 'Add New Note' button is still present. Below the welcome message, there are two note cards. The first card has a title 'Hiii...' and a subtitle 'helloooo', with a 'Last updated: Aug 19, 2025' timestamp. It has 'Edit' and 'Delete' buttons. The second card has a title 'Hello' and a subtitle 'Hello World', with a 'Last updated: Aug 19, 2025' timestamp. It also has 'Edit' and 'Delete' buttons.
